The screenshot shows the Visual Studio Code interface. On the left, the terminal window displays a series of git commands and their outputs. The first command shows untracked files (chapter2.txt and chapter3.txt). Subsequent commands add these files and then show the staged changes. The file browser panel on the right lists three files: chapter1.txt, chapter2.txt, and chapter3.txt. The content of chapter1.txt is visible: "It was the best of times, it was the worst of times." The file browser also provides information about each file, including creation, modification, and last open dates.

This screenshot shows a Mac desktop environment with several windows open. In the foreground, the Visual Studio Code (VS Code) application is running in dark mode. The terminal tab is active, displaying the command 'git init' being run in a directory named 'Project'. The output shows that an empty Git repository was initialized in the specified path. The sidebar of VS Code shows files like 'secrets.txt' and '.gitignore'. The status bar at the bottom indicates the current line and column (Ln 1, Col 1), the number of spaces (Spaces: 4), and the encoding (UTF-8 LF). A floating terminal window titled 'zsh' is also visible, showing the same command and output. In the background, a Finder window displays a folder structure with three text files named 'file1.txt', 'file2.txt', and 'file3.txt', and one file named 'secrets.txt'. The desktop background is a dark, textured image.

The screenshot shows a macOS desktop environment with several windows open. In the foreground, a terminal window from the iTerm app is displayed, showing the output of a 'git status' command. The terminal window has tabs for 'zsh' and other sessions, and icons for 'PROBLEMS', 'OUTPUT', 'DEBUG CONSOLE', and 'TERMINAL'. The terminal content includes a user's name, the current branch ('main'), a message about no commits, a list of untracked files ('file1.txt', 'file2.txt', 'file3.txt', '.gitignore', '.DS_Store', and 'secrets.txt'), and a note about untracked files present. Below the terminal is a file viewer window showing three text files: 'file1.txt', 'file2.txt', and 'file3.txt'. To the right of the file viewer is a file browser window titled 'Project' containing a folder named 'Story'. The desktop background is dark, and the overall interface is clean and modern.

The screenshot shows a terminal window in VS Code with the following command history:

```
angela@mac Projects % git clone https://github.com/inolen/quakejs.git
Cloning into 'quakejs'...
remote: Enumerating objects: 196, done.
remote: Total 196 (delta 0), reused 0 (delta 0), pack-reused 196
Receiving objects: 100% (196/196), 1.86 MiB | 2.68 MiB/s, done.
Resolving deltas: 100% (113/113), done.
angela@mac Projects % cd quakejs
angela@mac quakejs % npm i
```

The screenshot shows a browser window displaying the `README.md` file from the `quakejs` repository on GitHub. The content includes instructions for running the server locally:

To note, if you're trying to run a dedicated server, the most up to date binary can be found in the `build` directory of this repository.

Running locally

Install the required node.js modules:

```
npm install
```

Set `content.quakejs.com` as the content server:

```
echo '{ "content": "content.quakejs.com" }' > bin/web.json
```

Run the server:

```
node bin/web.js --config ./web.json
```

Your server is now running on: <http://0.0.0.0:8080>

The screenshot shows a terminal session in VS Code. The user has cloned a repository from GitHub and is running npm install. The output shows the cloning process and the progress of the npm install command.

```
angela@mac Projects % git clone https://github.com/inolen/quakejs.git
Cloning into 'quakejs'...
remote: Enumerating objects: 196, done.
remote: Total 196 (delta 0), reused 0 (delta 0), pack-reused 196
Receiving objects: 100% (196/196), 1.86 MiB | 2.68 MiB/s, done.
Resolving deltas: 100% (113/113), done.
angela@mac Projects % cd quakejs
angela@mac quakejs % npm install
(理想) idealTee:send: sill fetch manifest uid2@0.0.2
```

The screenshot shows a browser window displaying the README.md file of the cloned repository. It contains instructions for running the locally cloned version of the project.

To note, if you're trying to run a dedicated server, the most up to date binary can be found in the build directory of this repository.

Running locally

Install the required node.js modules:

```
npm install
```

Set content.quakejs.com as the content server:

```
echo '{ "content": "content.quakejs.com" }' > bin/web.json
```

Run the server:

```
node bin/web.js --config ./web.json
```

Your server is now running on: <http://0.0.0.0:8080>

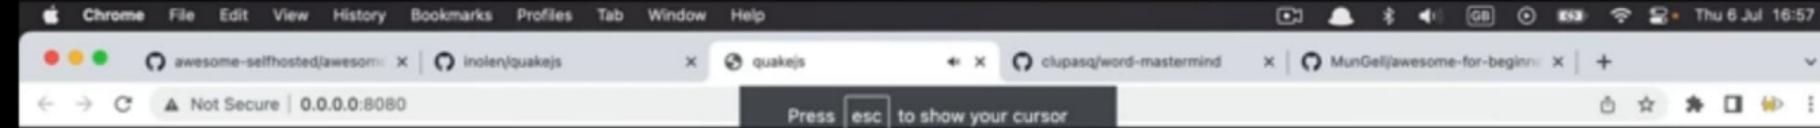

The screenshot shows a split-screen interface. On the left is the Visual Studio Code (VS Code) interface, and on the right is a web browser displaying a GitHub repository page.

VS Code Terminal:

- Terminal tab:** TERMINAL
- Output:**
 - angela@mac quakejs %echo '{ "content": "content.quakejs.com" }' > bin/web.json
 - angela@mac quakejs %node bin/web.js --config ./web.json
 - info: loading config file from ./web.json..
 - (node:54928) Warning: Accessing non-existent property 'padLevels' of module (Use 'node --trace-warnings ...' to show where the warning was created)
 - info: web server is now listening on :::8080

GitHub README.md:

- Section:** README.md
- Note:** To note, if you're trying to run a dedicated server, the most up to date binary can be found in the build directory of this repository.
- Section:** Running locally
- Text:** Install the required node.js modules:
npm install
- Text:** Set content.quakejs.com as the content server:
echo '{ "content": "content.quakejs.com" }' > bin/web.json
- Text:** Run the server:
node bin/web.js --config ./web.json
- Text:** Your server is now running on: <http://0.0.0.0:8080>

Branching and Merging

The screenshot shows a dark-themed code editor interface with several windows open:

- EXPLORER** sidebar: Shows a folder named "STORY" containing files "chapter1.txt", "chapter2.txt", and "chapter3.txt".
- chapter1.txt — Story** (active tab): Displays the first chapter of a story.

```
1 It was the best of times, it was the worst of times.
```
- chapter2.txt**: Displays the second chapter of the story.

```
1 It was the best of times, it was the worst of times.
```
- chapter1.txt**: Displays the first chapter again.

```
1 It was the best of times, it was the worst of times.
```
- PROBLEMS**, **OUTPUT**, **TERMINAL**, and other tabs are visible at the bottom of the main editor area.
- TERMINAL** pane: Shows a terminal session with the following output:

```
● angela@mac ~ %cd '/Users/philippmuellauer/Desktop/Story'  
● angela@mac Story %git log  
commit c583d956638229267c99090a310cbd1605d8626e (HEAD -> main, origin/main)  
Author: Philipp Muellauer <philippmuellauer@PM-2021-MBP.local>  
Date: Thu Jun 15 09:43:19 2023 +0100  
  
Complete chapter 2 and 3  
  
commit e8db310805ee38895c1f1c63be701b3130b65b85  
Author: Philipp Muellauer <philippmuellauer@PM-2021-MBP.local>  
Date: Thu Jun 15 09:42:55 2023 +0100  
  
Complete chapter 1  
○ angela@mac Story %
```
- File Viewer** (right side): Shows a file tree for "Story" with "chapter1.txt", "chapter2.txt", and "chapter3.txt". The content of "chapter1.txt" is displayed in the preview area:

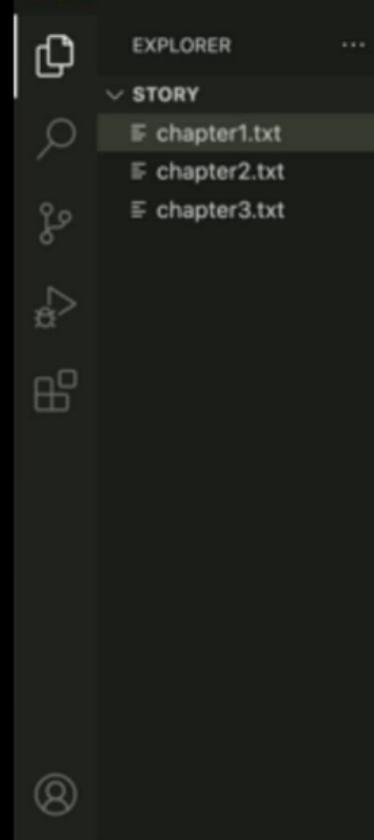

```
It was the best of times, it  
was the worst of times.
```
- Bottom Status Bar**: Shows file path "main", line count "Ln 1, Col 1", character count "Spaces: 4", encoding "UTF-8", line ending "LF", file type "Plain Text", and a Prettier icon.

A screenshot of a Mac desktop interface. On the left is the Visual Studio Code (VS Code) application. The title bar says "chapter1.txt – Story". The Explorer sidebar shows a "STORY" folder with files "chapter1.txt", "chapter2.txt", and "chapter3.txt", where "chapter1.txt" is selected. The main editor pane displays the first chapter of "A Tale of Two Cities": "It was the best of times, it was the worst of times." Below the editor are tabs for "PROBLEMS", "OUTPUT", and "TERMINAL". The terminal tab shows a command-line session:

```
angela@mac ~ %cd '/Users/philippmuellauer/Desktop/Story'  
angela@mac Story %git log  
commit c583d956638229267c99090a310cbd1605d8626e (HEAD -> main, origin/main)  
Author: Philipp Muellauer <philippmuellauer@PM-2021-MBP.local>  
Date: Thu Jun 15 09:43:19 2023 +0100  
  
Complete chapter 2 and 3  
  
commit e8db310805ee38895c1f1c63be701b3130b65b85  
Author: Philipp Muellauer <philippmuellauer@PM-2021-MBP.local>  
Date: Thu Jun 15 09:42:55 2023 +0100  
  
Complete chapter 1  
angela@mac Story %git branch alien-plot
```

The status bar at the bottom of VS Code shows "main" as the active workspace, with 0 changes and 0 errors. It also indicates "Ln 1, Col 1" and "Plain Text". To the right of VS Code is a Finder window titled "Story" showing the contents of the "Story" folder: "chapter1.txt", "chapter2.txt", and "chapter3.txt". The "chapter1.txt" file is selected, showing its content: "It was the best of times, it was the worst of times." The status bar at the bottom of the desktop shows "Mon 10 Jul 14:26".

Feature development with branches

git merge name-of-branch

A screenshot of a dark-themed code editor interface, likely VS Code, showing a project titled "Story".

The top menu bar includes: Code, File, Edit, Selection, View, Go, Run, Terminal, Window, Help.

The title bar shows "chapter2.txt — Story".

The Explorer sidebar on the left lists files under "STORY": chapter1.txt, chapter2.txt (selected), chapter3.txt, chapter4.txt.

The main editor area displays the content of chapter2.txt:

```
1 was the age of wisdom, it was the age of foolishness.
```

The bottom status bar shows: main 0 0 1↑ 0 0 △ 0, Ln 1, Col 58, Spaces: 4, UTF-8, LF, Plain Text, Prettier.

The right side features a "Project" view showing the "Story" folder containing chapter1.txt, chapter2.txt, chapter3.txt, and chapter4.txt. The content of chapter1.txt is visible:

```
It was the best of times, it  
was the worst of times.
```

Below the project view is a detailed file card for chapter1.txt:

Story

chapter1.txt
chapter2.txt
chapter3.txt
chapter4.txtIt was the best of space, i
was the worst of space.

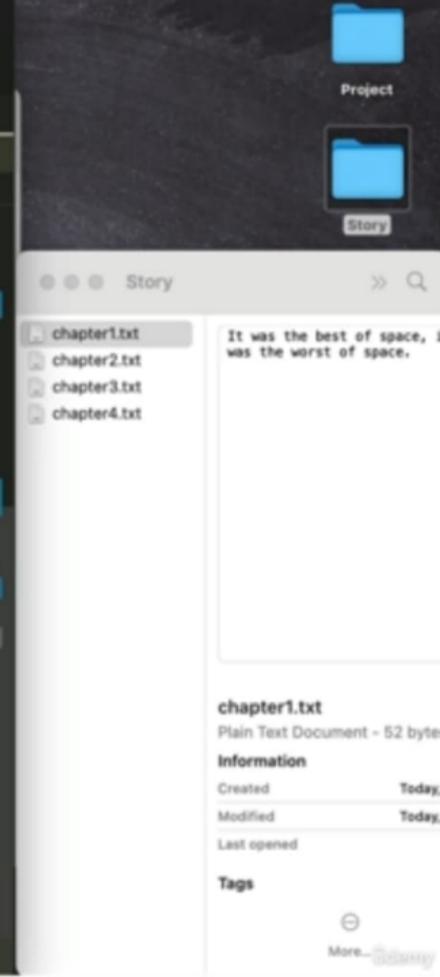

A screenshot of a dark-themed code editor, likely VS Code, showing a project named "Story". The "EXPLORER" sidebar lists four files: chapter1.txt, chapter2.txt (selected), chapter3.txt, and chapter4.txt. The main editor area displays the contents of chapter2.txt:

```
1 was the age of aliens, it was the age of humans.
```

The terminal window shows the following git history:

```
● angela@mac Story %git merge alien-plot
Merge made by the 'ort' strategy.
chapter1.txt | 2 ++
chapter2.txt | 2 ++
2 files changed, 2 insertions(+), 2 deletions(-)
● angela@mac Story %git branch
  alien-plot
* main
○ angela@mac Story %
```

The status bar at the bottom indicates the file is "main", has 0 changes, and 0 errors. It also shows the current position is Ln 1, Col 53, with 4 spaces, using UTF-8 encoding, and is in Plain Text mode.
